Your reading (14 items)

There is an ever-increasing range of helpful published guides to various parts of, or approaches to, the research process. These include:

The complete guide to writing your dissertation: advice, techniques and insights to help you enhance your grades - Steve Ball, 2012

[Book](#) | Focuses on turning your research into a successful dissertation.

The Complete Guide to Writing Your Dissertation: Advice, Techniques and Insights That Will Help You Enhance Your Grades - Steve Ball, 2012

[Book](#) | Focuses on turning your research into a successful dissertation.

Doing a successful research project: using qualitative or quantitative methods - Martin Davies, Nathan Hughes, 2014

[Book](#) | The recommended text for U65033 Research Methods.

How to research - Loraine Blaxter, Christina Hughes, Malcolm Tight, 2010

[Book](#)

How to research - Loraine Blaxter, Christina Hughes, Malcolm Tight, ©2010

[Book](#)

Research using IT - Hilary Coombes, 2001

[Book](#) | This relatively short book actually works as an introductory guide to research in general, as well as serving its main function as a handbook on how to use IT resources to support your research.

Research interviewing: the range of techniques - Bill Gillham, 2005

[Book](#) | This book, with its single focus, provides a really through introduction to the principles and practice of interviewing for research projects; a useful reference if your research makes extensive use of interviewing, though other books listed here also cover interviewing.

Research interviewing: the range of techniques - Bill Gillham, 2005

[Book](#) | This book, with its single focus, provides a really through introduction to the principles and practice of interviewing for research projects; a useful reference if your research makes extensive use of interviewing, though other books listed here also cover interviewing.

A gentle guide to research methods - Gordon Rugg, Marian Petre, 2007

[Book](#) | This is another new introduction to research in general; it is more discursive and

'wordy' than Martin Brett-Davies (see above), and hence harder to use as a quick reference, but you may like this approach.

A gentle guide to research methods - Gordon Rugg, Marian Petre, 2007

Book | This is another new introduction to research in general; it is more discursive and 'wordy' than Martin Brett-Davies (see above), and hence harder to use as a quick reference, but you may like this approach.

How to find information: a guide for researchers - Sally Rumsey, 2008

Book

How To Find Information: a Guide For Researchers - Sally Rumsey, 2008

Book

Writing your dissertation: the best selling guide to planning,preparing and presenting first-class work - Derek Swetnam, Ruth Swetnam, 2000

Book | A simple and inexpensive guide.

Writing your dissertation: how to plan, prepare and present successful work - Derek Swetnam, 2004

Book | A simple and inexpensive guide.
